**Violence, hate, and oppression
have no place in American society.**

**Fight facism.
Resist extremism.
Defend the window.**

- 1** Call out intimidation in all its forms.
- 2** Protect shared values.
- 3** Foster civil discourse.

America is founded on shared values. These values anchor our debates, shape our laws, and guarantee our freedoms. Together, they make up what's known as the Overton Window: the values that define what it means to be American. Trump is working to shatter this consensus. He represents an unprecedented threat to our way of life. #DefendtheWindow calls on every American to reject the violence, fear, and oppression designed to tear us apart. And to unite in defense of the values that bind us together.
